Alaska® BATTERIES

Calcium Silver

Maintenance Free Battery	MF 95	12V 72AH @ 20Hrs

Specifications

Nominal Voltage	12V
Number of Plates	11
Dimensions (LxWxHxTH) mm	257x170x202x225mm
CCA -18°C	490A
Rc (Min)	80
Plates	Lead Calcium Silver
Separator	Polyethylene (PE)

Applications

- Automotives
- Stop-Start
- DC Application

Self Discharge @25°C

Capacity after 3 months storage	91%
Capacity after 6 months storage	82%
Capacity after 12 months storage	64%

Features

- Calcium Silver technology for enhanced battery life - sulfation resistance, increased battery life.
- Instant start with excellent performance.
- Designed to ensure superior performance during initial engine cranking.
- Special expander technology enables reliable starting at temperatures as low as -15°C
- Advanced microporous Polyethylene (PE) separators reduce internal resistance for improved efficiency.
- No water loss during battery operation - Sealed (MF) Battery with Magic-Eye indicator.
- Consistent repeated cranking performance without capacity degradation.
- High-rate discharge characteristics compatible with vehicle cranking current requirements.
- High quality polypropylene (PP) containers ensure extended battery life.
